

CSWC Operational Period Summary

0600 March 20 2016 to 1800 March 20 2016

Today marks the beginning of Tsunami Preparedness Week for California

SITUATION SUMMARY

BART Service Delay, Contra Costa County

- On 03/16/16 at 1735 hours, the California State Warning Center (CSWC) received a report from the State Threat Assessment Center (STAC) advising that an electrical surge caused damage to 50 BART train cars on the tracks between Pittsburg and Concord in Contra Costa County. It could be months before a full fleet of trains is up and running
- BART still has a complete shutdown of service remaining between the North Concord and Bay Point stations. BART officials advised that riders should be prepared to continue taking a bus bridge between the Pittsburg-Bay Point and Concord stations at least through Monday morning
- BART has issued an Advisory on its website, stating that a 10-minute delay can be expected on the Pittsburg/Bay Point Line in the Pittsburg / Bay Point and SFO directions. Riders will still be able to board a BART train at the North Concord Station if traveling towards Oakland and San Francisco.
- A bus bridge has been established for riders traveling between the Pittsburg/Bay Point and North Concord-Martinez stations. Concord BART station has 14 buses that will bridge service while BART works on equipment problems between Pittsburg and Concord.
- BART isolated the problem to a portion of track along Highway 4, just east of the Willow Pass exit on the upslope entering the Pittsburg Hills. When the cars passed over this stretch of track, instead of delivering 1,000 volts of electricity, for an unknown reason the third rail was producing as much as 2,000 volts, according to a senior BART official. The track troubles do not pose any safety concerns for passengers.
- On Friday, BART reports that they were able to muster only 516 cars for service, 63 less than its goal of 579 trains to offer regular service for growing ridership
- Service on other lines in the system will also be affected because there will be fewer cars in service. BART urges passengers to check the their website before going to the impacted train stations at www.bart.gov/alerts
- The Cal OES Coastal Region and CSWC are monitoring the situation.
- [This will be the final report for this incident until significant information warrants an update](#)

SITUATION SUMMARY

HWY 3 Roadway Damage, Trinity County

- On 3/15/2016 Trinity County Proclaimed a local emergency and activated their EOC to Level 1 due to a washout of 1000' of Highway 3.
- A detour is available between Weaverville and Trinity Center using East Side/Trinity Mountain Road; but trucks and RVs are not allowed due to tight curves. Large vehicles will need to access Trinity Center via Highway 3 from the North.
- Highway 3 over Scotts Pass is open, residents can leave the Coffee Creek and Trinity Center areas via Highway 3 to Yreka for supplies. Currently, the only route to take Coffee Creek and Trinity Center residents in 2 wheel drives to Weaverville is a 140 mile detour north on Highway 3 to Yreka, south on I-5 into Redding, and west on Highway 299.
- Highway 3 is expected to remain closed at the slide until Memorial Day weekend.
- Scotts Mountain Pass and East Side Trinity Mountain Road will be plowed starting tomorrow and throughout the storm.
- There are no requests for assistance at this time as all needs are being met. Caltrans, Trinity, Shasta Counties and contractors are working to alleviate transportation issues.
- [Inland Region will continue monitoring for additional impacts from the incoming storm.](#)
- National Weather Service are providing spot weather reports. More rain is predicted this weekend. [More rain is predicted this today through the middle of next week.](#)

Health and Medical

- Basic Life Support EMS is available from the local Fire Department.
- A four wheel drive ambulance, which could meet an ALS ambulance if need be, is at the Slate Creek detour.
- Air Ambulances are available in good weather.

Baker to Vegas Cup Relay, San Bernardino County

- Cal OES Auxiliary Communications Service (ACS) [have de-mobilized](#) deployed in support of the Baker to Vegas Challenge Cup Race where Cal OES ACS will be assisting San Bernardino County by providing OASIS and Communications at two locations in support of the Medical Base operations.
- OASIS will link the Doctors and EMS providers to the base hospital located in the Inland Empire.

Cal OES Mission Tasking

- **2016-SREOC-21067:** Cal OES communications support scheduled for March 18-20, 2016.

SITUATION SUMMARY

Weather of Concern

Northern California

- Isolated showers will continue through the evening and overnight over the North Coast increasing the likelihood of rock and mudslides.

Southern California

- Strong winds will develop by late morning Monday and peak in strength Monday evening through Tuesday before gradually subsiding Tuesday evening.

Cal EOC Incident – 2014 Drought

SOC / Inland REOC remains activated in support of 2014 Drought.

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA

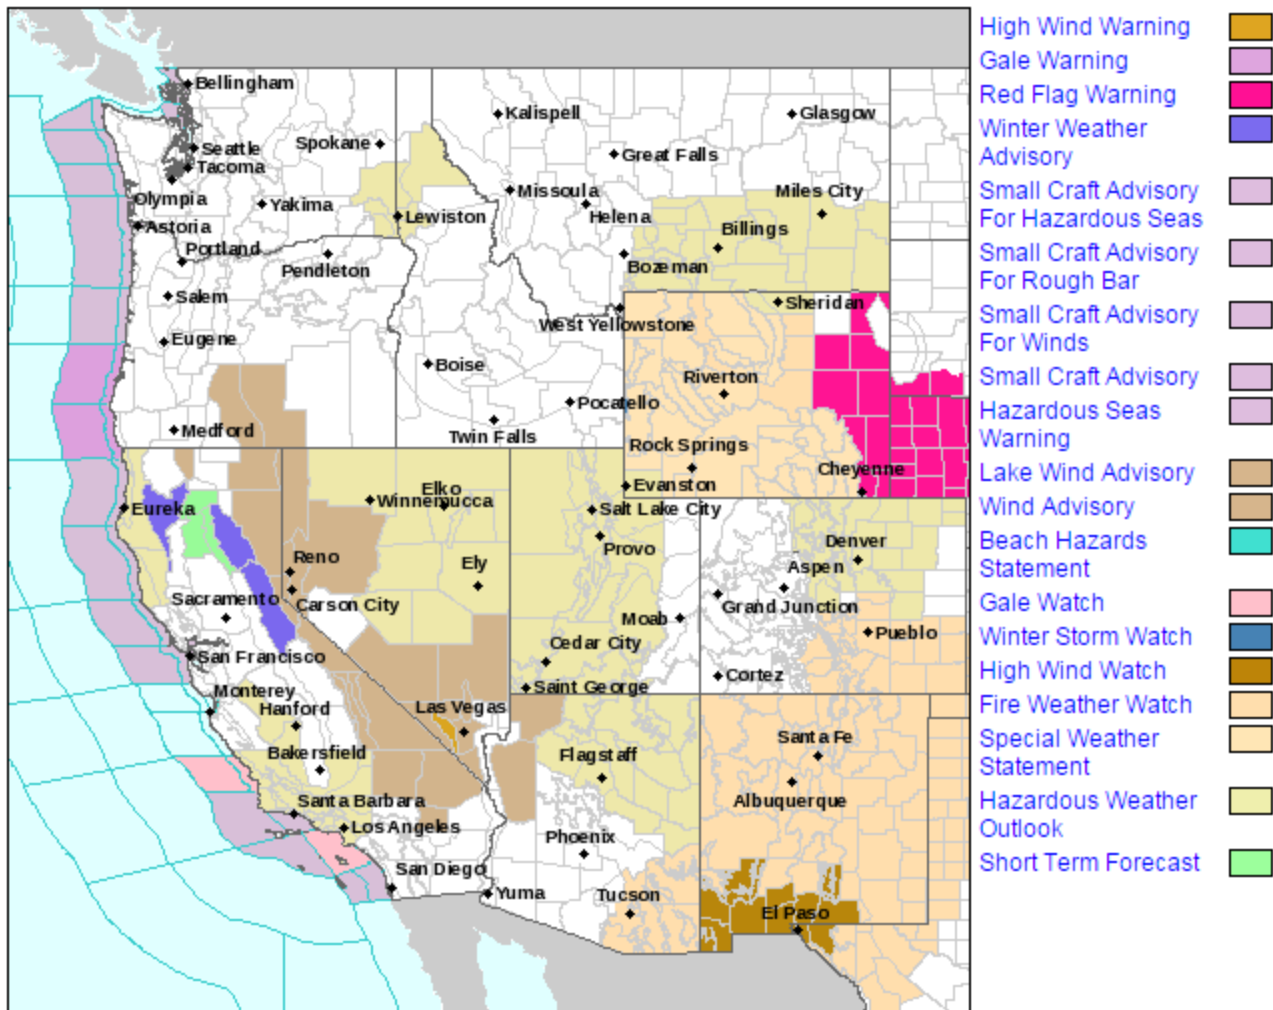

Band of precipitation associated with the front has been gradually moving across Northern California today. Precipitation amounts over the past 12 hours have ranged from around a tenth to a quarter inch in the valley north of Sacramento, 1/4 to 1/2 inch in the northern foothills and Coast Range, and 1/2 inch to an inch over the northern mountains. Precipitation has just recently begun over the northern Sierra, and it's possible there will be some limited impacts later tonight as snow levels lower slightly below pass levels. Wet weather returns into Tuesday with showers, mountain snow, a few thunderstorms and breezy winds. Travel over the Sierra may be impacted at times into Tuesday by accumulating snow, especially Monday afternoon and night.

SOUTHERN CALIFORNIA

A weak frontal boundary along the Northern California coast stretching southwest will weaken as it moves into central California tonight. No precipitation is expected in Southern California. However, it will deepen the marine layer north of Point Conception and many areas may stay cloudy through the afternoon. Minimal impacts in the south. Model forecast soundings indicate little change in marine layer depth or inland extent of the low clouds. A second weak front will move through late Monday night into Tuesday. This system appears to have just slightly more energy with it. Main thing with these systems will be increasing west to northwest winds Monday through Tuesday night, especially I-5 corridor and Antelope Valley then shifting to northeast on Wednesday.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.

CAL OES MISSIONS

Closed Cal OES Missions

- **2016-LAW-22022 03/19/16, 1355 hours,** The IERCC reported an inReach (Delorme) device activation along Big Pine Highway in Los Angeles County. A message was sent thru the device that the registered owner (R/O) had sustained a leg injury while riding motorcycles. Los Angeles County Sheriff's Department (LASD) was notified and initiated a response. At 1437 hours, LASD advised that San Bernardino Fire was on scene treating the R/O for minor injuries. **Mission Closed.**
